## Full-Stack Typescript Developer Frontend-leaning

**GITHUB**  
<https://github.com/giuseppe-messi>

**MY WEBPAGE**  
<https://giuseppemessina.dev/>

### / SUMMARY

Full-stack JavaScript developer with 8+ years on the frontend and hands-on backend experience from personal projects. I build accessible, fast, and maintainable UIs in React and TypeScript. Commercial background is predominantly frontend, with backend exposure through self-built Node, Express, MongoDB and PostgreSQL projects.

For a clear sense of my work, review my GitHub page, which is an active, in-progress portfolio, reflecting the depth of my skills and my drive to keep experimenting, improving, and building.

### / WORK EXPERIENCE

#### REACT DEVELOPER

##### CHAS || London || Sept 2023 – Now

###### CHAS

UK's leading provider of compliance and risk management solutions.

**Tech Stack:** React, Redux, TypeScript, MUI Components, HTML, CSS, monorepo, Jest, React Testing Library.

###### Responsibilities:

- Developed and updated web pages with React, TypeScript, and MUI components for a modern and responsive user interface.
- Resolved bugs and maintained website sections to enhance performance and user experience in an agile setting, ensuring timely updates.
- Collaborated with backend developers to integrate and utilize APIs for seamless frontend operations.
- Led the redesign and optimization of key website sections, enhancing user navigation and performance.

#### REACT DEVELOPER

##### Recite Me || London || Jun 2022 – Sept 2023

###### RECITE ME

Provides accessibility and language options tools to every online user.

**Tech Stack:** React, TypeScript, Styled Components, MUI Components, HTML, CSS, Storybook, Yup, Emotion, Zustand, Redux.

###### Responsibilities:

- Led creation of reusable React components for comprehensive design system application-wide.
- Managed and updated Storybook project to showcase design system components effectively.
- Developed new features from scratch based on design specifications for visually appealing web pages.
- Mentored junior developers to enhance skills and promote best practices adherence.
- Enhanced design system to improve developer efficiency and consistency application-wide.
- Expanded accessibility features to increase inclusivity and user-friendliness of the web application.

## REACT DEVELOPER

TOGGLE.AI || London || Jan 2021 – May 2022

### TOGGLE.AI

An investing tool that uses AI to analyse stock market assets.

**Tech Stack:** React, TypeScript, Sass, Styled Components, HTML, CSS, Storybook, Zustand, React Testing Library, Jest, Next.js.

#### Responsibilities:

- Developed reusable React components to create a cohesive design system for the application.
- Maintained and enhanced Storybook project to feature design system components with updated documentation.
- Utilized React Testing Library and Jest to add tests for untested components, improving code dependability.
- Addressed UI issues stemming from dynamic data changes to ensure consistent user experience quality.
- Enhanced code quality by increasing test coverage through unit and integration tests for both new and existing components.
- Participated in developing a versatile component library for widespread reuse in various projects.

## OPTIMISATION DEVELOPER

WeTeachCRO || London || Jan 2020 – Jan 2021

### WeTeachCRO

Conversion Rate Optimization Agency.

**Tech Stack:** HTML, CSS, JavaScript, jQuery, Firebase, Local Storage, React.

#### Responsibilities:

- Improved user experience and boosted conversions through the creation and integration of new website components using HTML, CSS, JavaScript, jQuery, and React.
- Evaluated A/B test outcomes post-component implementation to determine optimal variations.
- Collaborated with design and marketing teams to seamlessly integrate new features and enhancements aligning with client objectives.

## JUNIOR WEB DEVELOPER

Luxus Worldwide || London || May 2016 – Aug 2019

### Luxus Worldwide

Digital Marketing Company

**Tech Stack:** HTML, CSS, JavaScript, CMSs.

#### Responsibilities:

- Designed and developed HTML emails to enhance customer engagement and marketing strategies.
- Built and oversaw responsive web pages with HTML, CSS, JavaScript, and Adobe's CMS.
- Led the creation of a new Amadeus website, elevating user experience and performance through innovative design and technologies.
